Subject: RE: State Superfund Site Visit in Beaumont Area

Thanks for the heads up. Be advised that resources and infrastructure are in short supply and access is still limited. Also, please keep John Frey in the loop on future plans/schedule.

Thanks

Subject: State Superfund Site Visit in Beaumont Area

Be advised that TCEQ has requested EPA to assist them with a State Superfund site visit in the Beaumont area. More details will follow through ICS channels. I believe Anthony Buck will be elevating this issue to you in the next day or so. This is just a heads up because it apparently stems from a request by the Governor.
